

November 15, 2021

Hello,

It is with much pleasure to recommend the BioStats's Data Management department.

I truly enjoyed my time working with Naomi, the Data Manager, and came to know her as a true asset to the company. She is honest, reliable, highly responsive, and incredibly hardworking. As well, she's a pleasure to work with.

We had great communication and full support for all our technical or functional issues at each step of the EDC building, testing and during study conduct.

Naomi has been highly professional in operating the EDC and has always responded to each one of our requests promptly and efficiently, which gave us a peace of mind all along the study execution.

I highly recommend Naomi. She would be an asset to any project small or big. Please do not hesitate to be in touch if you have any further questions.

Sincerely,

Adar
