To Whom It May Concern,

Re: BioStats Statistical Services

I had the privilege to work with Lisa and Frederic for more than a decade in various companies and clinical projects from study design, analysis, meeting with regulatory agencies and submissions to the FDA and CE. The team is accessible and friendly and was always on our side to support and guide the company to succeed in the journey of bringing a new treatment or diagnostic test to the world. BioStat is more than a service provider, it's a true partner that is fully committed to the success of the company. I highly recommend on BioStat as your partner for success.

Sincerely,

Shmulik Adler

VP Regulatory and Clinical Affairs.
